### **Variable Description and Frequencies**

**Note:** Frequencies displayed for the variables are not weighted. They are purely descriptive and may not be representative of the study population. Please review any sampling or weighting information available with the study.

Summary statistics (minimum, maximum, mean, median, and standard deviation) may not be available for every variable in the codebook. Conversely, a listing of frequencies in table format may not be present for every variable in the codebook either. However, all variables in the dataset are present and display sufficient information about each variable. These decisions are made intentionally and are at the discretion of the archive producing this codebook.

## F12\_26: F12\_KISSEDLIPS

These questions ask about things you may have done willingly. Willingly means you gave permission or said it was OK. It also means you did it because you wanted to, and not because someone made you. Remember that all your answers will be kept private. Have you kissed someone on the lips other than a parent or relative?
